

Submitter: Marissa Wolfheart

On Behalf Of:

Committee: House Committee On Climate, Energy, and Environment

Measure: HB2990

As a member of the Portland Neighborhood Emergency Response Team for the past 7 years I have seen firsthand how trained community members can make a difference in a disaster immediately when emergency workers are unavailable to be at every place needing assistance at once. I support this measure to increase our community resilience in the face of increasing natural and manmade disasters that we expect to face in the future.
