

## **AMERICAN FREEDOM**

***Reflect- Year 1890, A lady on a Union Pacific Train heading to the western territory and the early US says to a young daughters' Ma, "Freedom will ruin her."***

**Freedom and Our Rights should be taught to us more often in K-12 today. We could learn a great deal about ourselves and the world around us, our history, family, opportunity, community, politics, religion, and more. Think about it, Just like two things alone, Individual Birthright to Freedom and Rights.**

**Today, across America they are being neglected and misunderstood, misused, ignored, and way under-rated by many Americans. We are so spoiled folks, just with these values, your standard of living is like middle-upper class social, economic, cultural. The power of Knowledge and the love for God, Country, Family, and Self would be able to work so much more usefully around the world if Freedom and Rights were Taught, Practiced, Honored, Shared, and Used Effectively by what has been given to us today at birth. Think about this kind of thing alone as equal to math, science, english, etc. as a basic subject to be an educational requirement as well as being pursued and developed into adulthood. America is missing the mark and letting so much potential be left as it has been when everything an individual needs to succeed and live a good life comes right from our God-Given Heritage and a strong Moral, Ethical, Value Class System (VCS) in itself. We must develop here, and learn to use these things individually. It is so much more than what many of us know. Have you ever felt spoiled just being an American? Theres reasons. Do you even know how many rights you have?**

**We need to stop that from being so untapped and ignorant to it, not understanding the power of our incredible natural-born wealth in heritage. And it's ABUSED. Our number one problem, abuse!**

**We have everything we need ladies and gentlemen, let's stop, come together and learn how to use it all over again. We must keep up with the times, we are leaving ourselves behind, time is flying by and we have everything it takes to get it right. American potential under neglect and abuse is American power left untamed. What a shame.**

**Imagine- At birth, ok here is your birth certificate, here is your social security card. Here are your rights and here is your FREEDOM! Why are we neglecting our best potentials that are given to us naturally at birth by right and each other, and by love. Why? And how is this happening over and over again even intergenerationally, Being left unchecked in so many places here at home? We must work to change this. "Because They Are Hard" Kennedy. There is a phrase that many of us carry around daily. IN GOD WE TRUST. Its perfect placement. How can we get better connected to this, it is not a logo. What does this mean to you? To me? And to others around you? Think about it like magic...**
