Of:

Committee: House Committee On Agriculture, Land Use, Natural Resources, and
Water

Measure: HB2659

As someone who has lived car free most of his life, walking across oceans of unused mandated parking is not something I enjoy. Making tons of parking a requirement stifles street oriented walkable business development and limits walkable options for those without cars. Not forcing seas of impermeable parking surface also seems to be a no brainer for climate goals that I agree need to be prioritized.
