

Submitter: Christopher Lunn
On Behalf Of:
Committee: House Committee On Judiciary
Measure: HB3390

I oppose HB3390. I grew up in Oregon and am saddened to think a bill of this nature would pass or even be considered. This bill has nothing to do with right and wrong. It is simply built from false narratives to play on the emotions of individuals. I, and many others, support our families from this industry. If this bill were to pass it would not only negatively affect residents of Oregon but also those in other states. From a management perspective it is a waste to force the disposal of fur and not be allowed to sell. Many of these animals are removed due to human/wildlife conflicts and will continue to be removed even if this bill were to pass. It is asinine to say we should be throwing away this green renewable resource. Many retail items will be affected by this bill. Items such as cowboy hats and fishing lures would also be banned. I urge you to oppose this bill that would negatively impact the lives of many families.
