

Submitter: Charles Missar

On Behalf
Of:

Committee: House Committee On Agriculture, Land Use, Natural Resources, and
Water

Measure: HB2659

Please do not move HB2659 forward. We need decisive climate changing action now, not a roll back, watering down, or delay of existing regulations. The science is clearer than ever that we need to reduce the use of fossil-based fuels now if we want to have a livable Earth.
