

Submitter: Collette Hayes

On Behalf Of: friends in Beavercreek Oregon

Committee: House Committee On Emergency Management, General
Government, and Veterans

Measure: HB2948

Over the past couple of year I have , along with others helped to transport and secure temporary shelter for horses as well as other farm animals. The local fairgrounds around Oregon are easy to find because they are known event locations and usually have hands on deck to help get things pulled together. It is a difficult transition for these animals and very scary for animals as well as their owners.

Fairgrounds need additional funding to help with temporary pens, feed and staff along with funds for improvements as needed by site.

Thank you!
