On Behalf Of: HB3390
Committee: House Committee On Judiciary
Measure: HB3390

I support HB3390 banning the sale of fur because the fur industry is horribly cruel and inhumane.

California has already banned the sale of fur and Oregon should follow suit.

Animals are confined to tiny cages for the duration of their lives and are then electrocuted anally or destroyed by similar gruesome means.

Such a hideously vicious industry must be abolished.

Thank you for having a hearing on HB3390, which I support wholeheartedly.
