

Submitter: Susan Kane
On Behalf Of:
Committee: House Committee On Judiciary
Measure: HB3513

With the numerous problems we all have, there are politicians trying to pass even MORE gun laws...not to protect the student or the shopper or the church goer and more. NO.. these supposed "2nd amendment" people are pushing for more laws to protect the gun toting crazies who can't get enough dangerous toys for their collection! Pay attention people! Stop these bills at the gate! Presently, Oregon (Oregon, do you believe it???) has HB3513 on the table claiming it's for suicide prevention. So misleading! I mean really...if you are thinking of suicide you shouldn't a gun in the first place. But the authors of the bill think that a person considering suicide should just hand their beloved gun to some trusted person for safe keeping is BONKERS! It gets better...if said trusted friend harms or kills someone with that gun this bill says "It's okay...no harm No foul." Utter nonsense!

STRONGLY OPPOSE!
