

Submitter: Susan Pfanner

On Behalf Of:

Committee: Senate Committee On Housing and Development

Measure: SB611

Dear Chair Jama, Vice Chair Anderson and Members of the Senate Committee on Housing and Development,

I urge swift passage of SB 611. Four in 10 Oregonians rent their homes and are already paying some of the highest rents in the nation.

I am lucky to live in a home we are paying mortgage on and I no longer am a single mother going to school, working and having to worry about how to pay for rent, child care, utilities and transportation. I remember days when I needed to be concentrating on my studies however in the back of my mind I was constantly worrying I would not be able to make ends meet.

Please consider the multiple difficulties of a family having to meet deadlines and due dates for paying bills. If renters are able to make ends meet, they're more likely to be successful in their effort to become a gainful, tax paying citizen. Thank you for considering a vote to pass SB 611.

Everyone in Oregon deserves safe and stable housing but our high rental costs and housing inequities are forcing families out of their homes. While the Oregon housing market provides skyrocketing property wealth for landlords, renters have nothing to fall back on when their monthly costs rise beyond their paychecks.

Very few people can afford a 14.6% housing cost increase. Getting an increase that high may as well be an eviction notice for Oregon renters.

SB 611 is a reasonable approach. Allowable annual rent increases for current tenants will be more predictable for current tenants and more homes will be protected. And between tenants, landlords can charge whatever the market will bear for vacant units.

SB 611 does not solve all the inequities in our housing market, but it is an important step to more fairness and is an essential element in the legislature's response to the state's housing and homelessness crisis.

Please vote yes on SB 611 to prevent more high-rent homelessness in our communities.

Sincerely,
Susan Pfanner, Retired Respiratory Care Practitioner
