

Submitter: David Armstrong
On Behalf Of:
Committee: House Committee On Judiciary
Measure: HB2005

As a sportsman and firearm owner who has lived in Oregon for 73 years I am apposed to this proposed legislation. I've never had a problem with the law. I believe it is unconstitutional.

This law will only affect law abiding firearm owners. Criminals will pay no attention if home made firearms is their deal they will keep making them.

So we will all contribute to paying for attorneys to fight these laws we should make those who propose and pass unconstitutional firearm laws pay the costs from their personal pocket. Otherwise as a tax payer, I pay for the States support of the legislation (no choice) and I help pay for the opposed legal expenses (by choice).

Please stop punishing the law abiding citizens and start going after the criminals. And fire DA's who let criminals go who shortly are involved in another crime. We all know that the DA's are responsible for a large number of repeat criminals doing it again.

Go after mental illness, real criminals, writers of unconstitutional laws.

Respectfully
