

Submitter: B R

On Behalf Of:

Committee: Joint Committee On Ways and Means Subcommittee On Education

Measure: HB5015

HB 5015 contains insufficient funding for education. Oregon education is already underfunded, and the proposed amount in HB5015 is insufficient to even maintain current staffing and programs, nevermind actually expanding and improving education. Oregon faces many challenges, and will never get ahead of them if we can't educate our future adults. The state of education in this state is disappointing, to say the least, and will hold Oregon back for decades to come.
