

Submitter: Todd Bauer  
On Behalf Of:  
Committee: House Committee On Judiciary  
Measure: HB2005

I just wanted to say that these guns all have ferrous metals in them so they are detectable and banning them are just taking them away from law abiding citizens the criminals will all still have these which I believe is wrong to punish people that follow the law when we know the criminals don't care about the law and will still have all these at their disposal
