Committee: House Committee On Judiciary
Measure: HB2007

Measure HB 2007 holds absolutely no merit or need for a law abiding citizen, who has already been vetted and given clearance to lawfully possess a concealed handgun permit. Like so many other measures that have been born, we once again see a overreach to the point of ridiculous. Its all about eroding, and taking away our God given rights, that were so beautifully executed by our founding fathers, which could see this scenario coming in the future.
