

Submitter: Deborah Knapp

On Behalf Of:

Committee: House Committee On Judiciary

Measure: HB3390

Dear Committee Members; I keep hearing about attacks on the way of life of farmers, ranchers, and other rural natural resource industries. This bill is not well thought out, will have unintended consequences economically on the whole state, as well as hurting a lot of good people. I suggest learning about the fur trade, and other natural resource trades, before seeking to eliminate them or regulate them. I strongly oppose this bill.
