

Submitter: Andrea LePain

On Behalf Of:

Committee: House Committee On Judiciary

Measure: HB3390

These animals are treated cruelly while alive and then brutal methods are used to kill them.

Think of the most miserable day and night that you've ever had and multiply that by 10's to approximate what these beings go through all of the time.

Who is making money in this barbaric "industry"?

For all of our sakes, redirect them to kinder way to make a living!
