

Submitter: Regina Purtzer

On Behalf Of:

Committee: Senate Committee On Housing and Development

Measure: SB611

Please stay out of regulating everyone and everything!!!

Deregulate if you want more housing.

We have constitutional property rights, however if you look at all the state rules and laws this doesn't appear to be true.

I am fed up with all the regulations affecting my property constitutional rights!

Stay off my property and regulate your own life!!!!
