

Submitter: Garrett Yordy

On Behalf Of:

Committee: House Committee On Judiciary

Measure: HB3390

If you eat meat, use leather, fish with fur flies, wear synthetic clothing that ruin the environment, drive a car which ruins the environment, use a cell phone or have electronics which mine huge natural areas for parts, then your opinion against fur shouldn't matter. Laws shouldn't be passed to satisfy a small group of hypocrites. Trapping should never be banned and the use of fur should never be banned.
