

Submitter: Kelly Galloup
On Behalf Of:
Committee: House Committee On Judiciary
Measure: HB3390

This bill would drastically affect our business even though we are not located within your state. We and the rest of the Fly Fishing industry have relied on Hareline for fly tying materials for years. They are one of the largest if not the largest businesses that supply fly tying materials to the world of fly fishing. This of course includes Hair/Fur. This would effectively destroy a large part of their business, and ours a well. Let this be a message of strong opposition to this Bill.
