

Submitter: Ilene Hirsh
On Behalf Of:
Committee: House Committee On Judiciary
Measure: HB3390

I am a commercial fly tyer. If this bill is not amended to allow fly tyers, fly fishers, and fishers overall, acquire fur products, a large part of Oregon's economy will be negatively effected. Angler's across the state use fur purchased from Oregon suppliers to construct flies and lures. If this bill is not amended, a large portion of the outdoor recreation industry will also be effected due to not being able to acquire supplies necessary for their businesses. Fishing stores, for example Cabelas, would not be able to sell flies.

Please, amend this bill to allow for the sale and use of fur products by anglers, guides, and the companies that supply these products.

Respectfully,
Ilene Hirsh
