On Behalf Of: 2A  
Committee: Senate Committee On Judiciary  
Measure: SB348

As a father of two living in todays corrupt government society I'm sickened to be an Oregonian. Our selfish government and your sick thinking on how one should deal with crimes and such is appalling. I oppose anything that comes out of your mouths regarding our second amendment rights that our four fathers reconciled many years ago. "Shall not be infringed upon" we will not tolerate your sick minds and attempts to control the American people and dictate our lives. We will stand up and defend our rights to bear arms indefinitely.
