Measure: HB3390

As a lifelong Oregonian I am dismayed and disgusted that once again we are having our country way of life threatened by people that don't understand it. I have several fur items that I wear. I have tanned hides personally and enjoy looking at the cougar on my wall. I love animals don't get me wrong but to decide what I can eat or wear is not someone else's decision. I have a small farm and raise beef, pork, goats and chickens. The fact that what I do is something that shouldn't be up for debate. Commonsense needs to be used in our legislation. The fact that it is not is very troubling and against our constitutional rights!
