On Behalf Of:

Committee: House Committee On Judiciary

Measure: HB3390

Please Oppose this bill. There is no logical reasoning that hold actual merit in this matter. Stop eliminating jobs, livelihoods, trade markets, and funds from Oregon's economy unless your goal is to bankrupt everyone and succeed in another state. Bills like this do not help anyone or really protect anything. PERIOD. They make honest people criminals and destroy what generations have worked hard to establish. Stop the insanity. Stop ludicrous bills like HB 3390. Thank you.

P.S. In case you are wondering, I am a logging company owner and I have nothing to gain financially by this testimony. I simply feel like more people need to speak up about common sense and the good of ALL Oregonians/Americans, not just the abnoxiously loud few with an agenda!!!
