

Submitter: Eric Lindquist
On Behalf Of: All law abiding Oregonians
Committee: Senate Committee On Judiciary
Measure: SB348

Equity: The quality of being fair and impartial. We should recognize that we do not all start from the same place and make adjustments to imbalances.

That being defined the amendments to HB 348 will worsen the equity in our state. These amendments are a harsher form of 114 which we all know has its own legal issues. Raising the fees for a permit to purchase makes strides against lower income people. Making laws that limit Law abiding citizens is against everything we stand for as a Constitutional Republic.

Standard capacity magazines are just that. I know you all have heard of the Bruen decision? Ramming legislation through session that is extremely limiting to lawful citizens rights is conflicting to the best interest of the citizens as a whole, mostly when you are taking away the easiest means to defend the people.

Crime has risen, homelessness has risen, police numbers have fallen, all because of the socialist democrat agenda. As an Oregonian who was born here, lived all over this state, Fought for this country (USN 1986-1992), I am sickened by the progressive agenda that is destroying the State I once loved. As representatives you should all be embarrassed of how divisive the ideologies have become. What you are legislating will make Oregon worse.

Stop legislating laws that make Legal citizens into criminals.
