

Submitter: Lisa Scrimenti

On Behalf Of:

Committee: Senate Committee On Labor and Business

Measure: SB907

I oppose SB 907. We do not need more regulation. There are already laws and government agencies that protect the rights of honest employees in the prescribed situations. Adding SB907 regulations on top of the current OSHA regulations and other laws already in place seems like a duplication of efforts. What will the cost be to Oregonians, and what is the long term goal of duplicating something that already exists? As the owner of a small business and an employer, I believe we do not need MORE regulations to follow. Let's hold employers accountable for existing laws, rather than create new and redundant laws.

Respectfully submitted,
