Measure: SB830

Submitter: John Raymonda
On Behalf Of: Oregon Unitarian Universalist Voices for Justice
Committee: Senate Committee On Natural Resources
Measure: SB830

I am writing to ask you to support this measure because the presence of beavers in central and eastern Oregon will very likely lead to storage of alluvial water with resulting enhancement of the water supply to support the flora and fauna in the area, rather than loss of the water due to run-off. I understand that any relocation will have to be done by people who understand the beavers' needs and will choose locations where the beavers are most likely to survive and multiply. I consider the work of this committee of utmost importance to the State of Oregon and I thank you for your efforts to preserve our environment.
