

Submitter: K Davis

On Behalf Of:

Committee: Senate Committee On Housing and Development

Measure: SB611

I support this bill! Constraints must be made on those who rent residential properties. As a senior renter, watching rents soar while income is fixed is terrifying proof of our out of balance economy where profits are held as more important than people. It is so important that people are provided not just with homes, but with stability. This bill provides some first steps in moderating the continued exploitation of renters from decimating our communities further. Please pass this bill!
