

Submitter: Colleen Kiernan
On Behalf Of: A concerned floating home owner
Committee: Senate Committee On Housing and Development
Measure: SB611

We definitely love living on the water. Since we are both on fixed incomes, rent increases are very difficult for us at this point in time. It would be devastating if we have to leave our home due to rent increases. We already pay \$908 a month! The owners of this marina live a lavish life, and I know for a fact that they make plenty of money from our rents. Thank you for your hard work in helping us! There is no place like home (and an affordable one at that.)
