

Submitter: Dominic Martinez
On Behalf Of:
Committee: House Committee On Judiciary
Measure: HB3390

I use hairline dubbing and other materials for fly fishing. You can not pass this bill, it doesn't include collecting furs for fly fishing. Fly fisherman need deer hair, elk hair, rabbit fur, moose, and other animals product to create flies for fishing. One od the most important is feathers and fur. Please amend the legislation to include this multi billion dollar business.
