

Submitter: Katie Kwan

On Behalf Of:

Committee: Senate Committee On Housing and Development

Measure: SB611

Greetings and thank you for listening to my testimony today. I've lived on Kalapuya Land, often referenced as Eugene, for approximately three years. The place I currently live involves navigating streets that often hold homeless and housing-insecure people. It is difficult to see loved ones and members in this community struggle with poverty and housing insecurity, and our community deserves better. I support SB 611 because housing is a human right, and this bill takes steps in a direction that increasingly affirms and protects these human rights. I urge you to continue listening to testimonies that assert how SB 611 supports the immense strength and deserved thriving of our local community here.
