

Submitter: Benjamin Stephenson

On Behalf Of:

Committee: House Committee On Judiciary

Measure: HB3390

This bill would directly impact both my business as a fly fishing outfitter as well fly fishing industry professionals who rely on the ability to purchase certain furs for tying flies. If this bill passes it will be putting hundreds of fly shop employees out of business and have a incredibly negative impact on fishing guides ability to lower their operating cost by tying their own flies with furs. I hope the people in salem take into consideration the negative impacts this bill would have and make amendments to the literature in the bill in order to allow us to continue pursuing our passion as fly tyers and fly anglers. Thank you for your time and consideration.
