

Submitter: Cody Martin
On Behalf Of:
Committee: House Committee On Judiciary
Measure: HB3390

This will greatly impact the fly tying and fly fishing community. Fly fishing as a whole is a major money earner for Oregon, many fly fishing companies that reside in Oregon will suffer from this. Policies such as these are the reason people are fleeing this great state. I along with many I've talked to look at this as another justifiable reason to leave this state we once loved. Stop catering to the major cities feel good measures and think of how these policies impact long running businesses here. How it will impact Oregons fly fishing, tying, and outdoor culture.

Regards,
C.A. Martin
