

Submitter: Erik Heeter
On Behalf Of: All Fly Shops in the state
Committee: House Committee On Judiciary
Measure: HB3390

This is a serious infringement of the ability for outdoor industries to survive in the state of Oregon, which is a huge part of the economy. How are fly shops, fishing and hunting guides, taxidermist, ect. supposed to survive in this state with a bill such as this? These businesses bring in lots of tax revenue and employ many people in this state. There are way bigger problems we should be tackling in this state. Bills shouldn't be based on feelings and emotions.
