Opposition of Bill SB 348

please take the time to research things yourselves before creating another mess for us, your constituents to have to deal with because you think you know what's best. There is absolutely no reason for this bill. You guys should be focused on more important things like equal parenting time, which you ignored the 200 requests for a public hearing. (Knopf, I am ashamed to call you my own legislator, Not one reply from you when every other legislator made time to reply). Use our tax money for more important reasons than hindering the lives of law abiding citizens. OPPOSE SB 348

Thank you for your time

Renee M Dominguez
