

Submitter: John Smith

On Behalf Of:

Committee: Senate Committee On Judiciary

Measure: SB348

The only good part of this bill is the "(Ballot Measure 114 (2022)), is repealed."

Anything more is a spit in the face to the American people. May we all pray every infringement on our rights gets decimated in the courts before the ink is even dry. It's a miracle how even proposing such bills like these doesn't trigger an immediate treason prosecution.
