

Submitter: Colin Bright

On Behalf Of:

Committee: House Committee On Judiciary

Measure: HB3390

I suppose this bill. It would shut down trapping for many people, who are in a way paying the state of Oregon to manage wildlife for them. I don't see any benefits to this bill. Trapping is a family tradition for many, not to meeting people who use animal fur for making fly fishing lures. Not only will this bill be limiting freedoms in the great state of Oregon, it should wouldn't be helping the economy or wildlife management. Please oppose this bill for the better interest of Oregon.
