

Submitter: Deborah Knapp

On Behalf Of:

Committee: House Committee On Climate, Energy, and Environment

Measure: HB3459

Dear Committee Members; This bill will cause financial hardship to small electric cooperative utilities, which will snowball into hardships within communities. The last part of the bill, requiring a state agency to oversee energy use of customers, is offensive to me. Requiring an energy utility to provide any state department with contact information of customers is nothing short of meddling in areas where the state does not belong. I strongly oppose this bill.
