

Submitter: T Mikuriya
On Behalf Of: Law-abiding citizens
Committee: Senate Committee On Judiciary
Measure: SB348

For legislators that have shown a continuing pattern of willingness to blatantly violate their sacred oath of office to uphold the Oregon Constitution and that of the United States, nothing I can say will dissuade them from their pursuit of power over the people and political gain.

I will simply say that I oppose this measure. Nothing in it will have any impact on criminal acts since criminals do not obey laws to begin with. You cannot legislate morality.

If our law makers truly had any interest in making the citizens of Oregon, and especially our children safer, they would be focusing on the actual problem. Using existing laws and providing funding to arrest, prosecute and remove violent offenders and criminals from our streets.

Uphold your oath of office. Remove criminals from our streets and stop the infringements on the inalienable rights of law-abiding citizens.
