

Submitter: Brett Meany

On Behalf Of:

Committee: House Committee On Judiciary

Measure: HB3390

Good Morning, My name is Brett Meany and I'm a fly fishing guide in North Carolina. My job requires me to use certain fur products to create artificial flies that I make my living with. Hairline Dubbin is an company based out of Oregon that I receive most of supplies from. This company supplies materials for people across the country and if this Bill is passed, it would hurt your lower middle class and drive people to look for black market furs causing more bad than good.
