

Submitter: Jerry Crawford

On Behalf Of:

Committee: House Committee On Judiciary

Measure: HB3390

I oppose this bill on the grounds that any fur bearers particularly predatory and nuisance animals will just be thrown away and wasted instead of being put to good use. Fur bearing animals are a renewable resource much like timber and should continue to be harvested and sold. If muskrats are not harvested they will over breed and end up starving causing massive die offs. I think this more inhumane than harvesting them.
