

Submitter: Mart Brenden  
On Behalf Of:  
Committee: Senate Committee On Judiciary  
Measure: SB348

Again, we as law abiding Oregonians are having our constitutional rights attacked. These proposed measures serve nothing more than to create criminals from law abiding citizens, and backdating purchases of related firearm magazines is Idiocracy.

Stop wasting our tax dollars. Start enforcing the laws we already have in this great state. Start by forcing PDX to enforce their laws. Start by fully funding our education system. Start by realizing you were elected to represent, not lead.
