Measure: SB348

3/26/2023

I oppose SB 348 for the following reasons:

Oregon does not have the resources to implement M114. Minorities and women will be impacted the most (negatively) with this regulation. This new law will be again challenged in court costing millions of tax payer dollars.

It increases a purchase cost from \$65 to \$150. This is nuts! You've eliminated the poor from exercising their 2A rights.

Lastly, there is NOTHING in this proposed law to make anyone in OREGON safer!!

Respectfully,
