

Submitter: Sheri Fayal
On Behalf Of:
Committee: Senate Committee On Judiciary
Measure: SB348

With Measure 114 tied up in courts, the creators of SB348 are undermining the judicial branch by trying to make this dangerous bill into law.

As an Oregon resident and constituent, I oppose SB 348 for the following reasons:

The "permit to purchase" fee increase suggests discrimination against minorities and the poor and deters their constitutional right to bear arms.

I oppose that this bill backdates the prohibition against gun magazines holding more than 10 rounds. Lawmakers want to punish in criminalize law-abiding citizens who have already purchased magazines holding more than 10 rounds. This is outrageous intent against the Oregon citizens' rights.

This bill attempts to control law-abiding citizens by taking away their constitutional rights to bear arms. It's discriminatory against the citizens of Oregon. It does not deter the criminal minded to go on the black market and purchase arms for criminal intent.

As an Oregon citizen, I urge bill SB348 to be voted down.
