

Submitter: Karen Stewart

On Behalf Of:

Committee: Senate Committee On Judiciary

Measure: SB348

Oregon is in a place to where we are fighting so much from the inside that there is even a huge part of the state that wants to become part of Idaho. Bills like this one that take away our freedoms are the reason. See our position is simple, keep government out of my day to day as much as possible and don't mess with our constitutional rights. We over govern and over spend on unnecessary things all the time. We should be focused on getting our budget under control, our people back to work, and our kids to be taught regular math science reading and writing. This bill has no place in what Oregonians want. Vote NO!
