

Submitter: Miles Lindgren

On Behalf Of:

Committee: Senate Committee On Housing and Development

Measure: SB611

For a state that wants to increase the rental housing supply, these are terrible policies. As someone who only owns 1 property and it is my only source of income, this makes everything wildly unfair & unbalanced. This would take away all incentive and opportunity to financially provide housing to begin with. Please please please do NOT adopt SB 611. The current policies are already strong enough!

Thank you.
