

Submitter: Belen Garcia Zepeda

On Behalf Of:

Committee: Senate Committee On Housing and Development

Measure: SB611

I Belen, a college student have had the amazing opportunity to afford to buy my own mobile home after years of hard work. This move was meant to allow me to be able to support myself through college and be able to finish strong however the rent has been increased twice since I have moved here. It is becoming harder and harder for me to pay rent. I am not able to afford to move my home since everything I had went into purchasing the home. I am stuck here and I know the rent will only be increased again. What was meant to be affordable housing has turned into a nightmare.
