Measure: SB907

I OPPOSE this bill. We do not need more regulations. There are already laws and government agencies that protect the rights of honest employees in the prescribed situations. Adding SB907 regulations on top of the current OSHA regulations and government laws already in place seems like a duplication of efforts. What will the cost be to Oregonians, and what is the long term goal of duplicating something that already exists? You have to ask what prompted this, and why current regulators and law enforcement want to enact more regulation and laws instead of supporting and upholding the existing laws and regulations that would hold bad employers accountable?
