

Submitter: Sky Barnum  
On Behalf Of:  
Committee: House Committee On Judiciary  
Measure: HB3390

This bill, if passed will do nothing other than cause further harm to the economy and limit personal freedoms.

The amount of products that use fur are incredibly vast. Everything from high end paintbrushes, felt products such as hats and liners for gloves, coats, and trim on garments. Outlawing the sale of fur and fur products will shut down businesses, limit choices for sellable products, and cheapen industrys. Additionally almost all of these products are sold and manufactured by small businesses.

Do not allow this bill to advance. Stop this constant attack on small business and the attacks on people and free choice.
