

Submitter: Don Denning
On Behalf Of: Oregon
Committee: Senate Committee On Judiciary
Measure: SB348

Regarding SB 348

The language of the bill postpones the implementation of the unconstitutional “permit to purchase” scheme until 2024. The intent of this element is to undermine the current injunction that was placed on M114 by a Judge in Harney County.

If there is no immediate permit to purchase, it’s likely that the injunction would be moot.

How this will affect the injunction on the magazine ban is less clear. Please note the bill calls for the prosecution of anyone who bought or sold a standard magazine since Dec, 8, 2022.

Magazines are still being bought and sold because of the injunction. Floyd Prozanski and the Democrats want to jail anyone who has done so since December. They call that “equity.”

Furthermore, the bill bans the sale, or acquisition, of firearms to young adults. While it contains a provision to allow 18-20 year olds to acquire a small number of firearms that would be poor choices for self defense, it removes even that provision after July 1, 2024, at which point they can acquire nothing.

This is a well coordinated and hateful attack by the majority party on the half of Oregon who voted against Mz 114 which, of course, included many Democrats. It is a vindictive effort to bypass a court decision Prozanski and the Department of Justice don’t agree with. Along with the other bills the majority party are pushing it is a full court press against our rights and the Constitution.
