

Submitter: Tony Stanfield  
On Behalf Of:  
Committee: House Committee On Judiciary  
Measure: HB3390

This proposed bill is a back door ban on trapping. Voters have already rejected efforts to ban trapping at least 2 different times. Trapping is so necessary for the farming and ranching communities and for wildlife management. Just no other means to manage fur bearers that would have any significant impact on their numbers. Please oppose this bill. Passage would harm so many in the rural communities.
