

Submitter: Ralph Newton
On Behalf Of:
Committee: Senate Committee On Judiciary
Measure: SB348

Evidently, when Gov. Kotek opined she would be "A governor for all Oregonians", That was not a promise, but a veiled threat. And here we are, our heavy burden of tax dollars being misused once again in capricious disregard for the Citizenry, so further burdened by this bodies dissonant interpretation of "leadership" in the creation of such a brutally dishonest and flawed piece of "legislation". This is of course, given this Salem's Lot's track record of enjoying the wielding of power over their perceived "enemies", (See; "Citizens Disagree with us"), just another attack on honest tax paying Citizens and their Civil Liberties. Having commented here many times thinking, "They must see the preponderance of opinion and the common sense in the words of the Electorate in opposition to their agenda", not once was this body swayed from such lack of wisdom, and common decent sense by the words of Oregon's Citizens. This is unwise and expensive, unworkable and a tragic waste of the Citizens tax dollars you lot so capriciously throw to the four winds. "Vote No" of course, and what's the use, you as a body no longer serve The People but only yourselves and your national and international masters agenda. "The welfare of the people in particular has always been the alibi of tyrants, and it provides the further advantage of giving the servants of tyranny a good conscience" A Camus
